

My comment is in regard to our current "Do Not Call" rule. Please do not implement any proposal that will lessen Indiana's Telephone Privacy law protections. I work two jobs and my time at home is scarce as it is. I do not want to be answering a telephone soliciting my money or time, when I don't have much of either. It has been wonderful to have my evenings free of phone calls which have cut down from possible six to eight a night to one to none! It is my God given right to not be bothered by solicitors and do not want my DO NOT CALL rule to be effected by your decisions. Please just leave us alone!
